The diagram consists of a grid of 100 small squares, arranged in 10 rows and 10 columns. A large, semi-transparent image of a person's face is overlaid in the center of the grid, covering approximately the middle 40 squares. The face is a grayscale image of a person with short hair, looking slightly to the right. The squares are arranged in a way that suggests a sequence or a process, with some squares being filled with a light gray color and others being empty. The overall layout is clean and minimalist, with a focus on the central face image.
